1 STAT CREW APPLICATION TERMS OF USE (December 2022)

1. STAT CREW SOFTWARE APPLICATION TERMS OF USE.

CBS Interactive Inc., a Delaware corporation, with its principal place of business at 235 Second Street, San Francisco, California 90455, ("CBSI") and CBSI's licensors (the "Licensors(s)") (CBSI and Licensor(s) collectively referred to as either "we", "us", or "Provider") make available to you the user in your own capacity, your agents, and employees ("you", "your" or "User") the Stat Crew Software Application (the "Stat Crew Application"), subject to these Stat Crew Software Application Terms of Use (the "Terms of Use"), which may be updated by CBSI from time to time without notice to you. It is important for you to refer to these Terms of Use from time to time to make sure that you are aware of any additions, revisions, or modifications that CBSI may have made to these Terms of Use. Your continued usage of the Stat Crew Application after changes in the Terms of Use signifies your acceptance of any new terms. (Provider and User collectively referred to as the "Parties".)

DO NOT ACCESS THE STAT CREW APPLICATION OR DOWNLOAD ANY PRODUCTS FROM CBSI UNLESS YOU HAVE READ AND AGREE TO BE BOUND TO THE TERMS SET FORTH IN THESE TERMS OF USE. YOUR AFFIRMATIVE ACT OF DOWNLOADING, OR USING THE STAT CREW APPLICATION SIGNIFIES THAT YOU AGREE TO THESE TERMS OF USE. IF YOU DO NOT AGREE, DO NOT DOWNLOAD OR USE THE STAT CREW APPLICATION. FAILURE TO ABIDE BY THESE TERMS OF USE MAY SUBJECT THE USER TO DAMAGES AND TERMINATION OF YOUR ACCOUNT. CBSI RESERVES THE RIGHT TO MAKE DETERMINATION OF VIOLATION IN OUR SOLE AND ABSOLUTE DISCRETION. ACCOUNT TERMINATION OR SUSPENSION MAY COME WITHOUT WARNING OR RECOURSE.

2. ELECTRONIC DELIVERY POLICY AND YOUR CONSENT.

You agree that CBSI may provide to you required notices, agreements and other information concerning the Stat Crew Application electronically. CBSI will post the notices/agreements/information on the home page of Stat Crew Application website. By continuing to use the Stat Crew Application, you agree to any such updated notices/agreements information.

3. INSTALLING STAT CREW APPLICATION.

When you install, interact and/or download the Stat Crew Application, you understand that we are not responsible for your use of or inability to use the Stat Crew Application, including without limitation the accuracy, or reliability of such Stat Crew Application. YOU USE SUCH STAT CREW APPLICATION AT YOUR OWN RISK. The Stat Crew Application is made available to you for your personal, non-commercial use only. If you want to sell, license or otherwise distribute, reproduce or modify the Stat Crew Application for any commercial purpose, you must obtain CBSI's prior written consent.

4. STAT CREW APPLICATION

CBSI may discontinue or change any service or feature of the Stat Crew Application at any time, without notice, and without compensation or refund to you of any kind.

5. PERMISSIBLE USE ONLY.

You may use the Stat Crew Application for lawful purposes only. You may not upload, submit or transmit via the Stat Crew Application any content, or otherwise engage in any conduct that:

- violates or infringes the rights of others including, without limitation, patent, trademark, trade secret, copyright, publicity or other proprietary rights;
- is unlawful, threatening, abusive, harassing, defamatory, libelous, deceptive, fraudulent, invasive of another's privacy, tortious, or contains explicit or graphic descriptions, or accounts of, sexual acts;
- impersonates any person, business or entity, or represents any deceptive or fraudulent act;
- contains viruses or any other computer code, files or programs that interrupt, destroy or limit the functionality of any computer software or hardware or telecommunications equipment, or otherwise permit the unauthorized use of a computer or computer network;
- interferes with the use of the Stat Crew Application by others;
- abuses system resources including but not limited to hacking, pinging, flooding, spoofing, or other malicious activity; or
- violates these Terms of Use.

You are responsible for maintaining the confidentiality of your CBSI login names and passwords and you accept responsibility for all activities, charges, and damages that occur under your account. If you have reason to believe that someone is using your account without your permission, you should contact CBSI immediately. We will not be responsible for any loss or damage resulting from your failure to notify us of any unauthorized use. If CBSI requests registration information from you, you must provide CBSI with accurate and complete information and must update the information when it changes. You are responsible for any misuse of your account, even if a friend, family member, quest or employee committed the inappropriate activity. Therefore, you must take steps to ensure that others do not gain unauthorized access to your account. In addition, you may not use your account to breach the security of another account or attempt to gain unauthorized access to another server resource or network. Sharing your login name, password and account access with unauthorized users is prohibited. You should take care to prevent others from using your account since you will be held responsible for such use. You may not attempt to circumvent user authentication or security of any host, network or account ("cracking"). This includes, but is not limited to, accessing data not intended for you, logging into or making use of a server or account you are not expressly authorized to access, or probing the security of other networks. Use or distribution of tools designed for compromising security is prohibited. Examples of these tools include, but are not limited to, password guessing programs, cracking tools or network probing tools. You may not attempt to interfere with service to any user, host, or network ("denial of service attacks"). This includes, but is not limited to, "flooding" of networks, deliberate attempts to overload a service, and attempts to "crash" a host. Users who violate systems or network security may incur criminal or civil liability. You will cooperate fully with investigations of violations of systems or network security at other sites, including cooperating with law enforcement authorities in the investigation of suspected criminal violations.

7. LICENSE, PROPRIETARY RIGHTS AND RESTRICTIONS OF USE.

and/or Provider's cost of enforcement of these Terms of Service. You agree to make payment for these indemnified actions promptly on an as-incurred basis. Notwithstanding the foregoing, Provider retains the exclusive right to settle, compromise and pay any and all claims, demands, proceedings, suits, actions or causes of actions which are brought against Provider and its independent contractors under the terms and provisions of this Section 13 and in no event will you settle any claim without Provider's prior written approval.

14. CHOICE OF LAW AND LOCATION FOR RESOLVING DISPUTES.

THIS AGREEMENT AND THE INTERPRETATION OF ITS TERMS WILL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK, WITHOUT REGARD TO ITS CONFLICTS OF LAWS RULES AND SPECIFICALLY WILL NOT BE GOVERNED BY THE UNITED NATIONS CONVENTIONS ON CONTRACTS FOR THE INTERNATIONAL SALE OF GOODS, IF OTHERWISE APPLICABLE. For any matters which are not subject to arbitration as set forth in these Terms of Use in connection with the entering of any judgment on an arbitration award in connection with these Terms of Use and/or the Stat Crew Application, the Parties irrevocably submit and consent to the exclusive jurisdiction and venue of the New York state and federal courts located in the City of New York, County of New York, and State of New York. *The parties agree not to raise the defense of forum non conveniens in such courts*.

15. ARBITRATION.

The Parties waive all rights to trial by jury in any action or proceeding instituted in connection with these Terms of Use, including, without limitation, the Stat Crew Application. Any controversy or claim arising out of or relating to these Terms of Use and/or the Stat Crew Application shall be settled by binding arbitration in accordance with the commercial arbitration rules of the American Arbitration Association. Any such controversy or claim shall be arbitrated on an individual basis, and shall not be consolidated in any arbitration with any claim or controversy of any other party. The arbitration shall be conducted in the State of New York, in the City of New York, County of New York. Any cause of action filed by you with respect to these Terms of Use and/or the Stat Crew Application must be filed within ninety (90) days after the occurrence of the facts giving rise to the cause of action, otherwise the cause will be forever barred.

16. EXPIRATION, TERMINATION AND SURVIVAL.

Your right to use Stat Crew Application automatically terminates if you violate these Terms of Use. We also reserve the right, in our sole discretion, to suspend your access to all or part of Stat Crew Application if you are delinquent in payment, with or without notice. Section 7 (except for the license we grant to you to use the Stat Crew Application which shall terminate), Section 9 and Sections 11 through 17 shall survive any termination of these Terms of Use and continue to govern any interaction between the Parties. Upon the expiration or early termination of the license to the Stat Crew Application, you are required to delete the Stat Crew Application from any and all devices you have downloaded the application to.

17. MISCELLANEOUS.

You agree to comply with all rules, laws and regulations that are applicable to your use of the Stat Crew Application, including, without limitation, those governing your transmission or use of any software or data. These Terms of Use contain the sole and entire agreement between the Parties with respect to the use of the Stat Crew Application and supersedes any and all other prior or contemporaneous written or oral agreements between them. Captions contained in these Terms of Use are inserted only as a matter of convenience or for reference and in no way define, limit, extend, or describe the scope of the Terms of Use or the intent of any provision of these Terms of Use. No waiver of any of the terms in the Terms of Use will be of any force or effect unless made in writing and signed by a duly authorized officer of Provider. It is the intent of the Parties to these Terms of Use, will be construed against either party pursuant to the common law rule of construction against the drafter. It is the intent of the Parties to these Terms of Use that said rule not be applicable to these Terms of Use. You may not assign or transfer any of the rights or obligations that arise under the Terms of Use to any third party without the prior written consent of the Provider. If any provision of the Terms of Use is held invalid or unenforceable by any court of competent jurisdiction or as a result of future legislative action, such holding or action will be strictly construed and will not affect the validity or effect of any other provision of the Terms of Use.

2 Quick setup

The following sections provide a quick overview on how to get up and running with TAS For Tennis. Details are described in other sections of the User Guide.

To start the software run the Stat Crew Control Panel and select Tennis | Game scoring.

Review the samples directory

A "SAMPLES" directory is supplied with the software -- we encourage you to use this directory to familiarize yourself with the software utilities, match entry and reports fea tures.

Create a season directory

Before entering your actual tennis statistics you should create a directory to hold data for a specific season. For example, to create a directory for the "2002-03" season, click on Utilities | Select or create directory. In the "Directory Name:" field enter "c:\tas\tastn\2002-03".

Enter team rosters

Next create the team rosters for your team and your opponent(s). Click on Utilities | Roster and team maintenance.

On the Roster Maintenance window, click on "New team" and enter information on the "Team information window (only Team ID and Team name fields are required), and click OK when done.

Then double-click on the team (or select the team and click on "Team roster") to display the team roster window. Click on "New player" to add players to the roster. Click OK when done.

Perform the same procedure for your opponent(s).

Enter match results

Select the "Game date format" and "Double count as one decision" options to use as a default when entering a new match. These settings still be changed on a match-by-match basis.

Click on Results entry | New dual match to enter the statistics for a new tennis dual match, or click on New tournament to enter the results for a tournament:

- 1. Fill in the information on the Match identification page.
- 2. Fill in the information on the General info page.
- 3. For tournaments, click on the "Hdgs" button in the upper right to generate headings.
- 4. Fill in the information on the Singles results page.
- 5. Fill in the information on the Doubles results page.
- 6. Click "Done" or "Apply" to save the information to the season directory.

Match and season reports

After entering match statistics, you can use the Match reports and Season reports pages to generate box score and season reports.

Career statistics

The Career page lets you enter and display career statistics on a season-by-season basis. You can enter just the data for the past 4-5 seasons so you have data on just your active players, or you can enter data for the every season for the team.

HTML files for your web site

Use the Html page to generate statistics files for posting to your web site.

Utilities

Access the program utility functions by selecting the "Utilities" page on the TAS For Tennis main screen.

Select or create directory

Before entering your actual tennis statistics you should create a directory to hold data for a specific season. For example, to create a directory for the "2003" season, click on Utilities | Select or create directory. In the "Directory Name:" field enter "c:\tas\tastn\2003". Or, for example, to create a directory for the "2003-04" season, click on Utilities | Select or create directory. In the "Directory Name:" field enter "c:\tas\tastn\2003-04".

Click on "Select or create directory" or click on "Directory" on the main menu to display the Select directory window.

C c:\ tas tas tastn f	AASUXTD AASUXTR AMERXTD AMERXTD AFUXTD BARRYXTD BARRYXTR	
	Drives:	
,	c: (acer)	-
	ОК	Cancel

Notes: If you are using TAS For Tennis for both mens and womens venues, you might create season directory names such as: 2003M, or 2003W. <u>Do not use more than 8 characters for the final portion of the season directory name.</u>

To select an existing season directory navigate the "Directories" list box until the desired directory is shown in the "Directory name:" field and press OK.

To create a new directory, type the name of the new directory in the "Directory name:" field and press OK. For example, change the Directory name to "c:\tas\tastn\2002-03" and press OK.

You are prompted to create the new directory. Click on "Yes" to create the directory.

In the above example, you will now have an "empty" 2002-03 season directory where can create team rosters and match results for that season. Note that a "reports" folder and an "html" folder are automatically created as well. The TAS Tennis software uses these folder for creating hard copy reports and web site file outputs.

Note: You may also notice that there are two directories in the c:\tas\tastn folder named "career-w" and "career-m". These folders are created automatically by the TAS Tennis program to hold career statistics for the womens and mens venues, respectively. These folders are not intended for use as specific season directories.

Roster maintenance

Refer to the chapter on "Team and roster maintenance" for a description of these functions.

Backup directory

It is recommended you backup your season directory frequently to protect against loss of data due to hardware or software failures. Click on "Backup directory" to access the backup directory function.

Verify the desired backup is selected (you might use the "Files" list to verify this is the right set of files) and click OK. The file restore function will then run and a "Restore complete" message is displayed after the restore is finished.

Export match

Click on the "Export match" button to save a match file to another location. Typically you will use this function to place a match file on a jumpdrive to exchange with another team using TAS For Tennis, or to place in an accessible location so you can later attach the match file in an email -- again so you can exchange the match data with another team using TAS For Tennis. Select the match you want to export.

Import match

Click on the "Import match" button to import a match file that was exported and sent to you from another team using TAS For Tennis. Locate the match file to be imported on the "Import match" window, then click on "Open".

Before the match is actually imported you can adjust the Game-ID and Team-ID fields to match the identifiers you use in your database (the sending team might be using different ID values). You can adjust these values and click "Save" to complete the match file import; or you can click on the "Edit" button to modify additional details of the match before completing the import function. Click on "Cancel" to abort the import match function.

You can click on the "c" (Conference team), "Team ID" or "Team name" fields to sort the list if desired.

Adding a new team

Click on the "New team" button to add a new team to the current season directory. The Team information window is displayed. Fill in at least the Team ID and Team name fields -- these are the only required fields.

Team ID:	EMU	
Team name:	Eastern Mennonit	e
Home site:	Harrisburg, PA	
Conference:	ODAC	
lead coach:	John James	
Team code:		Conference team
Conf abbrev:	ODAC	

Team ID: Enter a 1-8 character identifier for the team, for example, you could use "EMU" as the Team ID for Eastern Mennonite University. Make this field as meaningful as possible; the team ID is displayed in the box score and other report outputs.

Team name: Enter a 1-30 character full team name.

Home site: Enter the home site location for the team (optional).

Conference: Enter the full name of the conference/league this team is in (optional). *Head coach:* Enter the name of the head coach (optional).

Team code: Enter the team code used for official statistics reporting; for example there may be a specific code to be used for reporting the NCAA or the ITA and will normally be different from the team ID field entered above (optional).

Conference team: Check this field to indicate the team is a member of the conference (optional). This field is primarily designed for use in conference/league reporting functions.

Conf abbrev: Enter a 1-8 abbreviation for the conference; for example use "ODAC" as the conference abbreviation for the Old Dominion Athletic Conference. This field is used in various reports (optional).

Changing team information

To modify the team information you have entered for a team, select the team from the list and click on the "Team info" button. This displays the same Team information screen described above.

Deleting a team

To delete a team from the teams list, select the team and click on "Delete team". The team cannot be deleted if there are any matches assigned to that team. You can use the "Delete match" function described later to delete specific match results.

Editing a team roster

To edit a team roster, select a team in the list and click the "Edit roster" button, or just double-click on a team. The roster for that team is displayed.

Uni: Enter a unique identifier for the player. This field might also be thought of as an "ID" field instead of as a "uniform number" field. Each player on the roster must have a unique "uni" number.

Name: Enter a 1-20 character player name as you want it to appear in your reports. *Class/year:* Select from FR, SO, JR, or SR; or select "Other" and fill in the desired year value (optional).

Active: De-select this to indicate the player is no longer active on the roster.

Sgls: Enter the flight number (if any) for this player in the singles rotation, or leave blank if not in the normal rotation -- this field is used in Results entry by the Get lineup function to automatically fill in player names in the singles flights (optional).

Dbls: Enter the flight number (if any) for this player in the doubles rotation, or leave blank if not in the normal rotation -- this field is used in Results entry by the Get lineup function to automatically fill in player names in the doubles flights (optional). **Height:** Enter the player height (optional).

Weight: Enter the player weight (optional).

Hometown/school: Enter hometown and school for the player (optional).

Miscellaneous: Enter other miscellaneous information for the player (optional).

Code: Enter a specific code for the player (normally for reporting purposes -- optional).

Editing player info

To edit an existing player roster entry select a player and click the "Edit player" button, or just double-click on a player. The same player information window described above is displayed.

Selecting players

Get lineup: To select players using the values entered on the team roster in the "Sgls" (Singles) and "Dbls" (Doubles) fields, right-click on the roster displayed on the Singles results window and select "Get lineup". For example, the first player with a value of "1" on the team roster will be placed into the SINGLES flight 1 slot, and so on.

Drag-and-drop: Or, select a player using "drag-and-drop" from the match roster into the desired singles flight.

Uni #: Or, type the "uni" number for a player into a player slot. For single-digit uni numbers the player name will not be filled in until you exit that field (press Tab or click else where on the window).

Entering set-by-set results

Enter the score-by-set for each flight. The software will automatically post the win or loss for each flight for inclusion in the box score statistics.

Special result codes

For special results codes enter the following in the set-by-set results:

- wd win by default
- wf win by forfeit
- ww win by walkover
- wr win by retirement
- uf unfinished

Win by default -- enter "wd" as the score for the winning team:

SINGLES 1	Players	1	2	3	4	5
FGCU	Juliana Gracia	wd				
AMER	Katarina Kollarova					

SINGLES 1	Players	1	2	3	4	5
FGCU	Juliana Gracia					
AMER	Katarina Kollarova	wf				

Win by walkover -- enter "ww" as the score for the winning team:

SINGLES 1	Players	1	2	3	4	5
FGCU	Juliana Gracia	ww	ľ.	Ű.	Ĩ.	Ĩ.
AMER	Katarina Kollarova					

Win by retirement -- add "wr" as a set score for the winning player:

SINGLES 1	Players	1	2	3	4	5
FGCU	Juliana Gracia	6	4	Ĩ.	Ĩ.	Ĩ.
AMER	Katarina Kollarova	0	1	wr		

Unfinished -- add "uf" as a set score for the winning player:

SINGLES 1	Players	1	2	3	4	5
FGCU	Juliana Gracia	0	1			
AMER	Katarina Kollarova	6	3	uf		

Notes:

Wins by default, forfeit and walkover are treated the same statistically by the software. That is, these results are calculated as a match win for the team, but no won-loss statistics for the individual players are affected.

A win by retirement credits a win for the team and does update the season records for both players involved. Be sure to place the "wr" code on the line for the player who is to be credited with the win.

An "unfinished" match will appear in the box score results but does not affect won-loss statistics for the team or for the individual players.

Editing the match rosters

You can edit the match rosters independent of the "master" rosters (the roster entered using the Team and roster maintenance functions). You might want to do this for at least a couple of reasons:

- 1. To "tweak" the roster for a game that you have already entered.
- 2. To add players to a roster after you've already

To edit, insert or delete players from the match roster, right click on the roster lists on the Singles results page and select the desired function.

Enter the doubles results in the same manner described above for the Singles results, with the following exceptions:

- 1. You cannot edit the match roster from the Doubles results page -- use the roster lists on the Singles results page instead.
- 2. The Get lineup function is not available on the Doubles results page -- use the Singles results page instead.

This information is displayed in the Individual Match-By-Match season report -- the software automatically prefixes the value you enter in this field with a "t-" to indicate a tournament match. For example, if you enter "16" the software will automatically display it as "t-16" in season reports.

Opponent team: Enter the name of the opponent team. Since tournament matches are designed to be entered as a batch against a "fictitious" tournament team, use this field to identify the specific team for the opponent in each match.

Send live match update (FTP): Click to transmit live match update (requires TasFtp). *View match update Html:* Click to view the local match update Html file in your browser.

Home logo: Optionally enter the home logo image reference to insert into the Html file. *Visitor logo:* Optionally enter the visitor log image reference to insert into the Html file. *Indicate match is 'Final':* Enable this option to display "FINAL" in the live match update page.

FTP host name: Enter the host name or IP address of the FTP server.

FTP userid: Enter the FTP login userid.

FTP password: Enter the FTP login password.

Directory: Enter the directory to transmit the live match update to.

Note: To use the "Send live match update (FTP)" function you must have TasFtp installed. Alternatively you can use the "View match update Html" function and use a local FTP tool to transfer the updated Html file to your server.

After setting up FTP information, use the following procedure to post live match up dates:

- 1. Use the Singles or Doubles page to update match scores.
- 2. When a match is complete, click on the ">>>" details button for the match and fill in the "Order of finish" field (this causes the team score to be updated on the live page).
- 3. Click on Reports | Send live match update (FTP) to transmit the updated scores.

Note: The Html output is configured to automatically update every 60 seconds.

Tournament roster: Use the tournament roster list to select players for each individual match. You can either (a) drag-and-drop a player into the results area; or (b) select a cell within the results area and then double-click on a player name. If you need to add more players to the tournament roster use the "Tournament roster" screen view (above).

- --Click on "Sort by team" or "Sort by name" to reorder the tournament roster list.
- --Click on "3", "4", "5", or "6" to change the arrangement of columns in the tournament roster list. When you enlarge the size of the Tournament entry window you will be able to view more columns at-at-glance for selecting players into the scores entry grid.
- --Click on "Hdgs" to automatically generate flight/section headings for the tournament results.
- --Drag the double-line between the tournament roster list and the scores entry grid to adjust the size of these areas. For example, if you drag the double-line down, more players will be visible in the tournament roster list.

Report sub-headings: To cause a sub-heading line to appear in the tournament box score (for example, "No. 1 Singles" or "First Round", click on the "Hdgs" button in the upper right corner; or right-click in the results grid and select "Generate headings"; or to manually add headings enter a dash (-) in the "Round" column, and enter the text for the sub-heading in the first and second Player Name fields.

Round: Enter a 1-2 character designation for the round; for example "32", "1", "QF", "SF", "C", and so on.

Team: This field is automatically filled when you select a player from the tournament roster list.

Singles Players: To automatically fill this field, drag-and-drop a name from the tournament roster list; or click in a player name cell and then double-click on a name in the

tournament roster list.

Doubles Players: Same as for "Singles Players" except there are, of course, two names for each team line. The software assumes that both players on a line are on the same team.

Set scores (1,2,3,4,5): Enter the score for each set. If there is a tie-breaker, enter the tie-breaker score it following the set score in parentheses. For example, if the score for a set was 7-6 (7-4), enter "7 (7)" for the first team score and enter "6 (4)" for the second team score.

Nat. Rank: If the player or pair is ranked nationally you can enter the player ranking in this column.

Reg. Rank: If the player or pair is ranked regionally you can enter the player ranking in this column.

Generate headings: Right click in the scores grid and select "Generate headings" to automatically generate headings for the flights/sections in the tournament.

Insert heading line: Right click in the scores grid and select "Insert heading line" to add a heading entry before the current selected row.

Insert blank line: Right click in the scores grid and select "Insert blank line" to add a line before the current selected row.

Delete this line: Right click in the scores grid and select "Delete this line" to delete the entry at the current selected row. A sample of the "Doubles results" entry window:

Report heading: Enter the report heading you want to appear in the title of each report. **As of prefix:** Enter the prefix to be used for the "as of date" prefix context in the title of each report.

As of date: Enter the "as of date" for reports; this is used in conjunction with the "As of prefix" field; the software uses today's date if this field is left blank.

Season: Enter the year identifier for this season, for example, "2002" or "2002-03"; a maximum of 8 characters is allowed.

Venue: Enter "Mens" or "Womens".

Division: Enter the team classification, such as "I", "1-A", "II", "III", and so on.

Prompt this dialog at startup: Check this field if you want the General options window to be displayed automatically each time you start the software; this feature might be used, for example, as a reminder to reset the "As of date" to a specific value rather than relying on the current computer date.

Generate reports with tab stops: Check this field to generate reports with tab stops for word processing.

'Style' report options: Click this button to open the window to enable and set your preferences for the 'style' report options.

Schedule notes

Enter the text you want to use as an explanation of schedule note characters that appear in match results reports. Note that the software automatically uses an asterisk (*) to de note conference matches, and a percent (%) sign to denote regional matches -- so you should at least include an explanation of those notations.

Report settings

The following paragraphs describe various settings that can be used to configure/tailor season reports.

Sort by

Select whether to sort the season statistics by name or by flight number.

Show career W-L

Select whether to include career summary statistics when generating the season statistics report.

Show rankings info

Enable this option to display team and individual ranking information, and W-L record vs ranked opponents.

Show misc statistics

Enable this option to display W-L streak and "Last 10" matches W-L record in the Season Statistics report.

<u>Team vs ranked</u>

Enter the criteria to be used to calculate team W-L records vs national and regional ranked teams, or enter "0" to disable display of W-L records vs ranked teams. For example, enter "20" in the "National top" field to calculate W-L records vs national top 20 teams.

Individual vs ranked

Enter the criteria to be used to calculate team W-L records vs national and regional ranked opponents, or enter "0" to disable display of W-L records vs ranked opponents. For example, enter "100" in the "National top" field to calculate W-L records vs national top 100 players.

Include matches

Choose which matches to include in the season reports. Several pre-determined "filters" are provided such as home, away, etc. The default is "All matches".

You can choose "Selected matches" to generate season statistics for a specifically selected set of matches. Use the "Specify selected matches" window to select matches from the available inventory into the "Selected matches" list.

<u>Squash venue</u>

Enable the "Squash venue" option to indicate the current season directory contains squash statistics (instead of tennis). Season and career reports will be formatted accordingly

Season reports

The following sections describe season reports that are available in TAS For Tennis. See "Report tailoring" above for details about tailoring/customizing the reports.

Managing career season files

Career statistics are entered on a season-by-season basis. Create a new season file for each season you want to track (for example, you might want to enter only the last few years to track career statistics for active player career statistics only). To add a new season file, or to edit or delete an existing season file, click the "New", "Edit" or "Delete" season buttons on the right.

2004

Adding a new season file

To add a new season file, right-click in the career files list and select "New", or press the <**Ins**> key in the career files list. Enter the year for the new season file.

Enter year (e.g. '2002' or '2002-03'):	
2001	

The Season file editor for that year is then displayed.

HTML generation

Overall process: The general procedure for generating your HTML files is as follows:

The TAS For Tennis software can automatically generate HTML files that you can post to your web site. The content of the HTML files include:

- --A "home" page (teamstat.htm) that you can use to link to the other pages that are generated
- --A schedule and results page (teamres.htm)
- --A season statistics page (teamcume.htm)
- --A team match-by-match statistics page (teamtgbg.htm)
- --An individual match-by-match statistics page (teamigbg.htm)
- --A career statistics page (teamcar.htm)

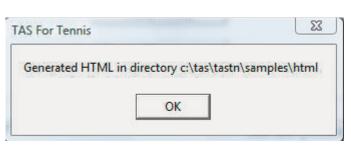

Various features of the HTML that is generated can be customized to:

--specify the title/heading to be applied to the pages (such as "2002-03 Eastern Mennonite Tennis")

--automatically insert your own standard "top" and "bottom" sections for each page (for

- --example, logos, links, copyright statements, and so on) -- to improve the appearance of the HTML pages and provide consistency with the rest of your web site.
- --provide a background color or image to apply to each page
- --specify a color combination for the column headings of statistics sections
- --specify particular for statistics table attributes such as borders, cellspacing, and so on
- --specify a font face to use with the page, such as verdana, arial, helvetica, and so on
- --specify the font size attributes to use for web statistics displays
- --select whether to include career statistics in the HTML output

Generating the HTML

To generate the HTML pages click on the "Generate HTML" button on the HTML page.

The HTML files are built in an "html" folder within your current season directory (as shown above). You can use an FTP tool to send these files to the desired location on your web site. Or, you could use Windows Explorer to copy the files in this directory to a jump drive so you can send these files from another computer, or pass the drive on to the person(s) who manage the updating of your web site for you.

Customizing the HTML output

You can customize various features of the HTML pages. In some cases, this tailoring may require advice or assistance from technical support or from your information technology department.

Additional pages

Enable the "Conf-only stats page" option to include an additional season statistics page in the Html output with conference-only statistics.

Enable the "Team roster page" option to include an additional team roster listing page in the Html output.

HTML tailoring

Click on the "HTML settings" button to show/hide the HTML tailoring detail fields. Fields on the "HTML tailoring" section of the TAS For Tennis HTML page include:

dy> bgcolor="#ffffff"	 verdana
t headings> bgcolor #00008b textcolor #ffffff	 small data: 1 medium data: 2
Edit HTML top	large data: 3 headings: +1
Edit HTML bottom	1 CONTROL AND INCOME DURING AND A

<u><body></u>: Enter the HTML attributes to apply to the <body> tag in the HTML pages; typically this will be to control the page background, for example, bgcolor="#ffffff" (white background), or background="mybackground.gif" (a custom graphical background).

<stat headings>: Enter the background color and the text color to apply to column headings for statistics tables in the HTML pages; typically these colors are specified in red-green-blue (RGB) format; the defaults are background color "#00008b" (a dark blue) and text color "#ffffff" (white) -- an RGB color reference is included at the end of this document.

<u>stats </u>: Enter the attributes to apply to the tag for statistics table in the HTML pages; the defaults are no border, and a spacing of 5 pixels between each statistics column.

: Enter the font to use in the HTML pages; the default is "verdana"; for example, you might change this setting to "arial, helvetica" or "times new roman", and so on.

: Enter the font sizes to use for statistics data that is generated for display in "small", "medium" or "large" font sizes; the software automatically selects the small, medium or large values depending on the layout for a particular statistics section; if select a different , you may want to experiment with the values to determine the best sizes to use.

Top and bottom sections

To customize the top portion of each HTML page, click on "Edit HTML top". This lets you specify the HTML code to be inserted at the top of each HTML document (immediately following the <body> tag). Typically, you might "cut-and-paste" the HTML code from another standard page on your web site in this section. A file editor window is displayed for modification of the top section.

To customize the bottom portion of each HTML page, click on "Edit HTML bottom". This lets you specify the HTML code to be inserted at the bottom of each HTML document (immediately before the </body> tag). Typically, you might "cut-and-paste" the HTML code from another standard page on your web site in this section. A file editor window is displayed for modification of the bottom section.

General options

To customize the general titles/headings for the HTML pages, click on "Options" on the menu bar display the "General options" window. Use this window, for example, to specify the report heading and "as of" date for the HTML pages.

Loading match results

Match results can be loaded by importing match files sent to you by member schools, or by entering the match results directly.

Import match

Member teams using TAS For Tennis can send match result files to the conference office electronically. To do this, they need to send the "gameid.xtg" file for each match (nor mally via an email attachment). When you receive the file, save it into a temporary directory. Then, on the "Utilities" page, click on "Import match" and point the "Look in" field to the temporary directory where you saved the incoming match results file.

Double click on the file you want to import. A window showing key match information is displayed.

Dual match info		
Visitor team ID: BARRY	Barry	
Home team ID: NU	Northwood	

Change the "Game ID", "Visitor team ID" and "Home team ID" fields to match the IDs you are using in your conference season directory. Click "Save" to complete the import of the match.

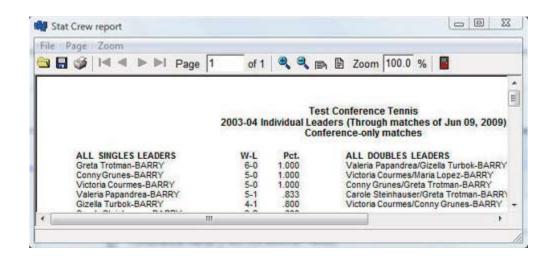

Manual entry

Or, match results can be entered using the Results entry page view functions.

Conference HTML generation

Optionally configure the top and sections of the Html pages by tailoring the top/bottom HTML settings and team page settings on the "Season" page view. Click on the "Generate Conf HTML" button to generate the conference HTML pages. A "confstat.htm" page is generated with links to other pages including a page for each conference team.

View HTML

Click on the "View Conf HTML" button to preview the HTML pages in your browser (before you post the pages to your web site).

Posting HTML files to your web site

To post the HTML files to your web site, copy all of the files generated in the HTML sub directory (shown in the on-screen message) to the appropriate directory on your web site. These files can be transmitted directly using an FTP (file transfer) tool, copied to a jump drive for later transmission, or via other methods.
