

Baseball/Softball - Sending a season-to-date file (*teamid.CAP*)

To send a baseball/softball season-to-date file to the conference office or to another team, first use the "Capture stat file" function:

1. Run the WINDOWS UTILITIES program
2. Select StatEdit files | Capture stat files
3. Select your team from the Teams List
4. Select StatEdit files | Export stat files
5. Choose a directory (such as **a:**) for export
6. Select your *teamid* from the Stat files list
7. The following files are created:

teamid.CAP -- overall statistics

teamid.CAC -- conference-only statistics

teamid.CAG -- game results

Next, start your email software, and attach the season-to-date file(s)

1. Select the "attach file" function
2. Locate the save directory (from above)
3. Attach the *teamid.CAP* file
4. For the conference office, also attach the *teamid.CAC* and *teamid.CAG* files
5. If needed, set the email attachment options in your email software to send attachments "as is" or "binary" -- consult your email software vendor for questions

To import the season-to-date file(s) that you receive, use the StatEdit files | Import stat files function:

1. Save the *teamidid.CAP* attachment(s) to a working directory (such as **a:** or **c:\temp**)
2. Run the WINDOWS UTILITIES program
3. Select StatEdit files | Import stat files
4. Choose the working directory (above)
5. Select the *teamid* from the Stat files list
6. The season-to-date files are imported into your current games directory
