

## Volleyball - Sending a match file (*gameid.VGM*)

To send a volleyball match file to the conference office or to another team, include the match file as an email attachment:

1. Select the "attach file" function
2. Locate your current volleyball games directory (for example, c: \tasvb\2000)
3. Attach the *gameid.VGM* file
4. Attach the *gameid.VPL* file (optional - if you want to include the play-by-play)
5. If needed, set the email attachment options in your email software to send attachments "as is" or "binary" -- consult your email software vendor for questions

When you receive a match file, use the Utilities import function to include the match in your current games directory:

1. Save the *gameid.VGM* attachment to a working directory (such as **a:** or **c:\temp**)
2. Run the DOS UTILITIES program
3. Select File maintenance | Import/Export
4. Select the Import match file function
5. Point to the working directory where you saved the attachment
6. Select the *gameid* from the Matches List
7. The match file is imported into your current games directory.
