The Automated ScoreBook for Golf

What's New 2000-2020

Legacy Version 1.22 (July 2020): no updates

Legacy Version 1.21 (2019):
• Updated NCAA team codes

Version 1.14 (2012-2018):

• Exclude Event, W-L statistics from four-player team total line when team only contributes individual players to a tournament (that is "non-designated")
• Career Reports: Add a change to preserve Game Records changes to minimum settings
• Season HTML: "HTML Copy to disk" no longer supported when Individual match-by-match pages is enabled
• Season HTML: Include additional lines in HTML scorecard display for different courses in tournament
• Season HTML: Include scorecards on tournament HTML page if Tournament info | "Include player scorecards in Html output" option is enabled
• Tournament HTML sorts "did not complete" teams to bottom of team standings

Version 1.11 (2009-2011):
• Add Reconcile button to Tournament roster to allow for "normalize" of player names after import
• In boxscore, show "dq", "dnc", etc. as appropriate instead of "-"
• Conference HTML: Generate game file HTML names in lower case on local computer
• Add name format conversion buttons to Team Roster window
• Season Reports: Display medalist (Top 1), instead of Top 20 in top finishes section
• Career Reports: Display medalist (Top 1), instead of Top 20 in top finishes section
• Live HTML: Show starting tee time where applicable (instead of "-" or "DNF")
• Live HTML: Improve sort of team standings
• Save additional team information for roster import/export (click OK on player roster window)
• Live HTML: Ability to show starting tee time where applicable (instead of "-" or "DNF")
• Ability to sort low rounds summary by relation to par (instead of total strokes)
• Display average per round with two decimal places
• Season HTML: Added HTML | Individual MBM pages option for separate season history pages * Tournament boxscore: Show "dq", "dnc" , etc. as appropriate, rather than "-"
• Removed erroneous "Top20" column header from Career Statistics Summary report
• Roster maintenance: Added name format conversion buttons to the Team Roster window
• Conference HTML: Able to generate game file HTML names in lowercase on local computer
• Added Reconcile button to Tournament roster to "normalize" of player names after import

Version 1.10 (2008):
• Add Golf tab to TAS Zip backup/restore window
• Optionally include player scorecards in HTML pages
• Add relative to par breakdown on scorecards summary page
• Capability to insert graphic images in to the header area of hardcopy 'style' reports
• Match entry: Allow for entry of "10" or higher when using numeric keypad (in additional to number keys on QWERTY keyboard)
• Match entry: Adjust colors for below par (red), par (green) and over par (black) on scorecard entry screen
• Live HTML: Adjust par calculations to accommodate hole-by-hole scores collection during a tournament
• Live HTML: Optionally create a link to a scorecard display for each player from the Leaderboard page — enable "Include scorecards page" option on the Live update screen
• Live HTML: Include match notes at top of the live tournament update page
• Pairings reports: Add a "Stringer sheets" report to print score collection sheets for stringers on the course during a tournament
• Pairings reports: Reports | Pairings | Group information allow for tee designations such as "1A" and "1B" to accommodate the sequence for shotgun starts

Version 1.9 (2007):
• New — 'Style' reports: AP box, leaderboard, individual results, team results, team by team, conference leaders, season statistics, and career summary

Version 1.8 (2006):
• Implement tournament "Scorecards" report
• Implement tournament "Hole-by-hole summary" report
• Implement "Conference" page functions (leader reports and HTML pages)
• Add "slope" and "rating" fields to course information entry
• Add links to team scores section in leaderboard HTML
• Add team/individual low rounds section to season statistics report
• Add team/individual low rounds section to conference statistics report
• Option to include team roster page in HTML output
• Implement "Include selected matches" (i.e.: to separate spring/fall stats)
• Implement change player name/TeamiD function through all matches
• Add function to generate player pairings HTML page
• Add automatic refresh (60 seconds) for live HTML update

Version 1.7 (2005):
• Add "Conference" page function — Leaders, HTML pages
• Add "slope" and "rating" fields to course information entry
• Add "hint" display for entering optional hole-by-hole scores
• Add links to team scores section in tournament leaderboard
• Season reports: Add team/player low rounds section to Season statistics report
