After 25 years, Stat Crew will be releasing the final version of its in-game scoring software. The final release will occur in early August 2022 and will be available for purchase and download via the [Stat Crew online store](#).

**Important Change: pricing will remain the same (\$399 per sport), but the license purchased this final season will include XML for live stats through July 2025 (3 seasons). After July 2025, there will be no further XML activations. The software will continue to operate normally beyond 2025 for in-game scoring, running reports, updating career records, and live HTML. Only live XML will expire after July 2025. We will remind users to download and save the install modules (approximately 30 MB per module) and serial numbers for future reuse.**

**Also, as part of this final version, the NextGen application and cloud platform will expire July 31, 2022 and will not be renewed. We encourage customers with past data in the Stat Crew cloud to access and archive this data as soon as possible before August 1, 2022.**

**In December 2022, online ordering and downloading of software will be discontinued, so customers must purchase and download all software for fall, winter, and spring seasons before then. Also at that time, our online, phone, and email support of the software will wind down. Our customers should now begin to migrate data and make plans for live scoring beyond 2025.**

Please contact Stat Crew Software Customer Support for assistance with accessing data, placing orders, or questions about the upcoming changes at [support@statcrew.com](mailto:support@statcrew.com) or 513-771-4192.

We are in the process of identifying a permanent location for our knowledge base of articles, user guides, reference cards, etc., and will keep users informed about this. In the meantime, the SID community is a great resource for information, tips, and troubleshooting. We suggest checking the various Facebook groups (SID Scoring Assistance and Athletic Communications Help) or other sponsored SID communities.

We are grateful for the enormous support of our customers and proud of the service we have provided over the years. It has been our pleasure to serve the SID community of the NCAA, as well as many scoring crews and organizations around the world who have relied on Stat Crew for accurate game data. Thank you for your partnership.
