The Automated ScoreBook for Soccer/Field Hockey

What's New 2000-2019

Legacy Version 1.21 (July 2019):
• Adjust for Field Hockey 4-quarter venue settings

Legacy Version 1.20 (2018):
• Updated NCAA team codes

Version 1.19 (2017):
• Season Reports: Use value in Html | Setup | Html-Tags on teamstat.htm page to allow for <html lang="">
• Career Reports: Use value in Html | Setup | Html-Tags on histstat.htm page to allow for <html lang="">
• Updated NCAA team code list

Version 1.18 (2016):
• Game Reports: Fix to allow "Cancel" from Display | All selected
• Season Reports: Fix to extraneous 'c' character in Overall/Conf tab stops

Version 1.17 (2015):
• No updates

Version 1.16 (2014):
• Add class "=" attribute to <player> XML tag
• Add a change to preserve changes to previous Game Records minimum settings
• Improved All-time results editor NCAA code lookup
• Career HTML: Add links to seasons within All-Time Results
• Career capture: Include schedule legend in results capture
• Career XML: Include schedule notes for Next Gen archives

Version 1.15 (2013):
• Calculate minutes played for clock times beyond 100-minute mark (reverse scoreboard mode)
• Game Reports: HTML display defensive saves in live statistics for Field Hockey venue
• XML: In the <score> tag, add attributes "penalty", "shootout", "corner" and "unassisted" to further describe scoring play * Treat game with Schedule Note = "V" as vacated game — game statistics count, but no win or loss credited
• Season Reports: Add "F" indicator for forfeits in Game Results report
• Season Reports: HTML add links to individual game-by-game page from individual statistics page
• Show single-game highs for defensive saves (field hockey)

8721 Colerain Avenue
PO Box 531520
Cincinnati, Ohio 45253
Phone: (513) 771-4192
www.statcrew.com
@Stat_Crew

• Add all-time ranking indicator for single-game records to Individual Career History report (only displayed if ranking is within range of Records report settings | # entries for Game records value)
• Move access to the "Delete game records for ..." function on the Edit game records windows (use the Delete "All for ..." checkbox)
• Include player single-game highs in "Delete game records for ..." function

Version 1.14 (2012):
• Add option to show shutouts as SHO/CB0
• Default 'Old' style shutouts format option disabled at install
• Season reports: Display IAll selected, show Combined statistics at top of report (if selected)
• Add link index at top of Individual career summaries (all years) section
• Use player names for Individual career summaries internal page markers (to simplify links from bio pages)
• Fix to Individual career summary to show prior school statistics when no GP yet at new school
• Add goalie win-loss line to HTML boxscore output
• Add weather "=" attribute to venue tag in Game XML
• Include a line for "TM" in goalie section of boxscore to show team saves
• Implement individual player single-game highs XML output in file PGRECS.XML for migrating data to Next Gen
• Career reports: Add career game records XML outputs to HTML | XML (by season-for archives)
• Include shots information in Individual career stats leaders (offense section)
• Remove extraneous lines from Career HTML | XML (by players) output
• Game reports: Add "Lookup team codes" function to XML output window for single-game reporting

Version 1.13 (2011):
• Adjust font for date in Game Results to accommodate Verdana font
• Display shot totals in career summaries even when one of players' years totaled 0 shots
• Show "Saves" for goalies in Special | Individual game highs report
• Accommodate shared shutouts in season and career individual highs for goalies
• Show shared shutouts regardless of current season "show" option
• Season and Career reports: Add Goalie GP in Career Summary report, add Goalie Min, GP and GS
• Fix to correct heading for second page of 2nd period in 'style' play-by-play
• Add Support for entry of career-totals-only statistics (career totals for a player, without season-by-season statistics) To use this:
    1. Select Edit | Add new season
    2. Add a season for the last year of the player(s)
    3. Select Edit | Edit season data
    4. Check the "Contains career totals only" option
    5. Click the "Individual stats" button
    6. In the "Full roster" list click <New player>
    7. Enter the career totals for a player who last played in that year
    8. Repeat for other players as necessary

• Career reports: Add option for "All years" in Career Summaries HTML
• Career reports: Add "Minutes" to Edit season data show minutes played in Individual Career Summaries
• Improve name sort for three-part names i.e.: "Kevin D. Cox" and "T.J. Rogers"
• Game reports: Allow maximum six-characters for team code XML output parameters
• Game reports: Add "show list of NCAA team codes to XML output parameters — to display list of NCAA codes
• Career reports: Improve filter for "Team" player
• Career/Historical reports: Accommodate display for results when W-L-T is known, but final score is unknown
• On a defensive save, credit a team totals save (to uniform "TM") in addition to posting to individual player
• Add functions to show individual corners in Individual statistics, Game-by-Game report
• Game reports: Add goalie W-L record to boxscore, adjust column width for clock times over 100 minutes
• Add "All players" option to Special | Individual Game Highs report
• Add "TeamID.CAP" output to capture season stats function to support In-game season-to-date goals input
• Game XML: Add "shutout" and "sf" (shots faced) attributes to <goalie> tag, and "stadium" attribute to <venue> tag
• Career reports: Enforce minutes played for goalies in stats leaders report
• Suppress shots/shots on goal data columns if these statistics were not tracked in Career stats
• Save separate titles for men's, women's, field hockey venues in Career Reports

Version 1.11 (2009):
• New — Game Viewer access to career statistics (uses Career XML Summaries by player)

8721 Colerain Avenue
PO Box 531520
Cincinnati, Ohio 45253
Phone: (513) 771-4192
www.statcrew.com
@Stat_Crew

• New — Season reports feature to Show/Flag/Hide inactive players
• Game reports: Add print all boxscores function
• Live HTML: Add controls for text color of TeamlDs and "Prd" in scoreboard
• Show opponent rank in Combined Stats report
• Combine multiple players on single-page for Individual Game-by-Game report
• Season reports: Combined Stats report and Results report, format W-L-T as "#-#" if no ties
• Show games started in Extended Stats report
• Add support for schedule legend in Career All-Time Results reports
• Career reports: Expand ties for team and individual season and career records
• Career reports: Improve sort for season statistics summary (sort on points)
• Career reports: Add XML summaries (by season) for archive purposes
• Career HTML: Add controls for column header color
• Career/Historical reports: Accommodate data where games played information was not tracked
• Add "All" line to Individual Career Summary for "prior team" statistics totals
• Conference HTML: Add controls for column header color
• HMTL output: Add handling for "special" characters in player names

Version 1.10 (2008):
• New — Season reports 'style' format
• New — Career/Historical reports 'style' format
• New — Table-style format Career HTML output
• Improve directory prompts for: import/export, pack/unpack, HTML to disk, backup/restore
• Capability to insert graphic images in to the header area of hardcopy 'style' reports
• Season reports: Roster report added (features include sort by uni # or name, 'style' and XML format
• Utilities: Modify method for import roster
• Game scoring: Prompt for clock time at the end of the corner input sequence
• Manual entry: Automatically sort the Goal history list in chronological order after edit
• Season reports: Implement automatic game-tying goals calculation (instead of relying on manual entry)
• Season reports: Add "Goal scored per game" to Team Statistics report (in addition to "Goals scored average" entry)
• Career reports: Add support for penalty kicks/strokes made/attempted in summaries, season records and career records
• Live HTML: Optionally display game info within sponsor text (Add line in sponsor text file with the tag:

Version 1.09 (2007):
• Game reports: New 'style' boxscore, play-by-play
• Game Viewer: All of "http" access to Game, Season and Career XML files via the Internet
• Add "Season goal number" prompt on penalty kick goal
• Season HTML: Add "Shutouts" column to 'table-style' output for goalies
• Season HTML: Use player uniform number files/links for individual game-by-game outputs to allow for more predictable file names (i.e.: to create links for player bio pages)
• Field Hockey: Credit game-winning goal to player whose goal put the team ahead for good

8721 Colerain Avenue
PO Box 531520
Cincinnati, Ohio 45253
Phone: (513) 771-4192
www.statcrew.com
@Stat_Crew

• Game reports: Add option to specify whether to show "Fouls" in the boxscore
• Remember separate rules for each directory (simplify switching between soccer and field hockey)
• Option to mark stats for a player from another team/school (to exclude from season & career leaders)
• Game Viewer: Implement method to automatically resize viewer window at startup

Version 1.08 (2006):
• New — Live HTML: 'Stylesheet' format with TAS Live
• Career reports: Summary all-time, single-season rankings
• Career reports: All-Time records vs opponents
• Roster name format functions (upper, mixed, last, first)
• Import games list sort by date
• Show fouls in boxscore if "Show fouls" is enabled
