The Automated ScoreBook for Tennis/Squash/ Beach Volleyball

What's New 2000-2019

Legacy Version 1.21 (July 2019):
• Updated NCAA team codes

Legacy Version 1.20 (2018):
• Updated NCAA team codes

Version 1.14 (2012-2017):
• Add support for beach volleyball venue, use text "beach" instead of "sand"
• Season Reports: Remove shading from doubles individuals section on page 2 of Season statistics (to resolve .pdf issue)
• Season reports: For beach volleyball venue, append details results to match results report and Html
• Season HTML: Fix to corrupted HTML in doubles section with longer tournament date formats
• Season Reports: (Beach VB) Insert page break for additional doubles section
• Season Reports: (Beach VB) Fix dual match score listing in Season results report
• Career HTML: Add "Individual career history" option on HTML tab
• Conference Reports: Adjust leaders report for squash and beach volleyball venues
• Season Reports: Improve page breaking for individual match-by-match report
• Utilities: Load the "Active" setting for player rosters during "Import match" function

Version 1.11 (2009-2011):
• Career Reports: Add individual conference W-L record to Season editor window and career reports
• Utilities: "Normalize" player name spellings during import process
• Utilities: Populate master roster for new team during import of dual match
• Season Reports: Improve sort order for sort by flight wins option
• Roster maintenance: Add name format conversion buttons to team roster window
• Season Reports: For squash mode, remove empty Doubles section from Season Statistics report
• Season Reports: Add page break if required for a larger volume of singles/doubles/results
• Game entry: Fix to mishandling of right-click edit of uniform number in match entry roster boxes
• Tournament HTML: Add space after   in box score to accommodate web server tools
• Season HTML: Add HTML | Individual MBM pages option to create separate season history pages
• Season HTML: "HTML Copy to disk" no longer supported when Individual match-by-match pages option is enabled
• Season Reports: Fix to show vs national and vs regional W-L in doubles (section 2)

Version 1.10 (2008):
• Add Tennis tab to TAS Zip backup/restore window
• Match entry: Do not display "duplicate" warning message when more than one flight contains an entry of "No player"
• Capability to insert graphic images into the header area of hardcopy 'style' reports
• Live Tournament update: Remove local team heading from live stats update page
• Live dual match update: Force home/visitor logo to height of 100 pixe
• Exclude "No Player" from reports and HTML for season and Career stats
• Display ties if present in W-L-T summary at top of season stats
• Career Reports: Add hard-copy and HTML reports for selected single season
• Fix to suspended match showing in Season Reports as a tie

Version 1.9 (2007):
• New — 'Style' reports: individual match-by-match, team match-by-match, season results, season statistics, and career summary
• Match entry: Add "Suspended match" indicator for a suspended dual match — individual results will count toward season statistics, but match does not count toward team won-lost record
• Change boxscore to display only national rankings on the team and individual results lines; regional rankings are calculated and displayed in various season statistics reports
• Career reports: Add page breaks to the career summary report
• HTML: Show tiebreaker information in Individual match-by-match in season output
• HTML: Include "venue" information in match/tournament boxscores and live update page

Version 1.8 (2006):
• Automatically generate flight/section headings for a tournament
• Improve page break for individual match-by-match
• Add "Tour" column to season statistics report
• HTML: Option to include conference-only page output
• HTML: Option to include team roster page output
• Implement tab stops option
• Implement support for Squash venue
• Cosmetic improvements to tournament entry window
• HTML: Add automatic refresh (60 seconds) form live update

Version 1.7 (2005):
• Results entry: Disable the "Force visitor as home" option on the General info page (option not currently used)
• Results entry: Add option on General info page for "Doubles = 2 points" to support scoring methods where a dual match is five (5) singles flights, plus one (1) doubles match that counts as 2 points (total of 7 points)
• Implement the "Forfeits" section of the Dual match info screen
• Automatically include "No player" entry to each team roster when entering a dual match for use in default match
• Add method to insert subheadings (i.e.: "#1 Singles Finals") in to Tournament boxscore report

• Match entry: Prompt for overwrite of existing match files
• Select Match results | New tournament to score a tournament
• Use Tournament roster screen to identify teams and players
• Enter Singles and Doubles results
• Select Reports | Tournament boxscore
• Include tournament "matches" in schedule/results report
• Season reports: Remove "MP" column from hardcopy report
• Career reports: Add tournament W-L entry and reporting
• Add reports for career records and singles season records
• Career reports: Improve screen layout
• Implement specific button function to enable view of HTML settings (otherwise remain hidden)
• Add "Copy HTML to disk" function
• HTML: Add links to players at top of Individual match-by-match report
• HTML: Add links to section of career statistics pages
• Prompt for overwrite of existing match files in import match function
• Conference: Add Tournament entry function

Version 1.6 (2004):
• New — Control Panel feature to access software downloads online
• New — Conference reports functionality
• Add windows for entry of singles/doubles details including: order of finish; individual records for pre-match report, national and regional rankings for individual players, tie-breaker score details, position (for tournament), opposing team (for tournament)
• Add fields for entry of team and opponent national rankings on Match entry | Match identification page
• Add Pre-Match report to list singles and doubles matches, team and player rankings, W-L records, notes, etc.
• Show team/individual rankings in boxscore
• Show order of finish in boxscore
• Implement new individual match-by-match format (Detailed format) to show comprehensive player and opponent information for each singles/doubles match
• Season reports: New — Options for 'detailed' individual match-by-match format; show team/individual rankings information and W-L records vs ranked opponents; miscellaneous individual statistics (current W-L streak, W-L over last 10 matches)
• Season reports: Add filter for 'Selected' matches to improve ability to tailor contents
• Season reports: Add 'Dual' column to season stats
• HTML: Add Live match updates function (with TAS FTP similar to other programs)
• Utilities: Add functions for roster import/export

Version 1.5 (2003):
• Manual match entry
• Match boxscore report
• Season statistics report
• Schedule/results report
