Downloading from the Stat Crew Store:

1. After successfully logging in, navigate to <u>SOFTWARE PURCHASES</u>. Next, download and install The Automated ScoreBook (TAS) version(s) purchased by clicking on the "Download" link.

2. Save the file to your desktop or in a folder you can find from the "Run" prompt.

3. To begin the installation process, you must run the downloaded file. The Stat Crew Software Setup window will then be displayed.

Click <u>here</u> for instructions on locating downloaded files in different browsers.

The legacy software download links and serial numbers, for the current season are below. You may download the software from these links as needed through July 31. After July 31, the links will expire, and software renewal will be required. 4. At the Setup window, click on the product highlighted. When prompted, enter the serial number that was provided on the store page (or in the emailed receipt) and click "Okay". To complete the installation process, proceed through the various prompts.
