## Legacy Tools

### Maintenance Updates

Occasionally, minor changes/enhancements are made to Stat Crew Software products. When such a change is made to a product, it is referred to as an "Update" and is designated by a new last digit of the version number. For example, if the current version of a product is 4.20.1, the next update will be version 4.20.2.

Please note: Updates can be released at any time and are available for download from the Stat Crew website by any user. Go to [www.statcrew.com](http://www.statcrew.com) and select SUPPORT & FAQ → MAINTENANCE UPDATES (scroll down to access → direct link [here](#)).

Users need the serial number from the current version to obtain the latest update. To complete, follow the directions displayed on the download page.

**Click on any of the links below to go directly to the setup instructions:**

[TasComms32](#)

[Control Panel](#)

[TasZip](#)

[TasFonts](#)

[TasFTP](#)

[Electronic Scoreboard Interface](#)

TasComms32 (or "TC32") is a tool that supports serial (COM) port communications for Stat Crew scoring products. TC32 creates serial output during a game for media stats display and for scoreboard statistics.

**To install TC32:**

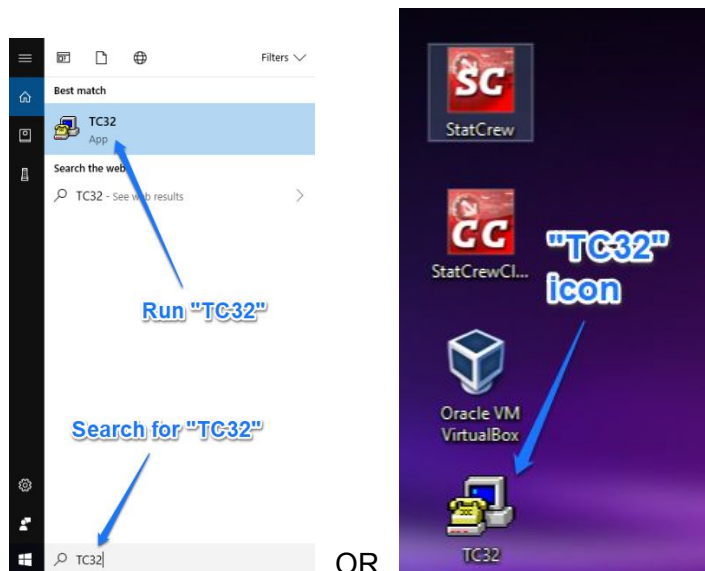

Go to [www.statcrew.com](http://www.statcrew.com) and select SUPPORT & FAQ → MAINTENANCE UPDATES → TasComms32 (under SOFTWARE TOOLS). **Direct link [here](#) → follow the instructions to download and install.**

**To run TC32:**

1. Type "TC32" in the search bar.

OR

Click on the "TC32" icon on your desktop.

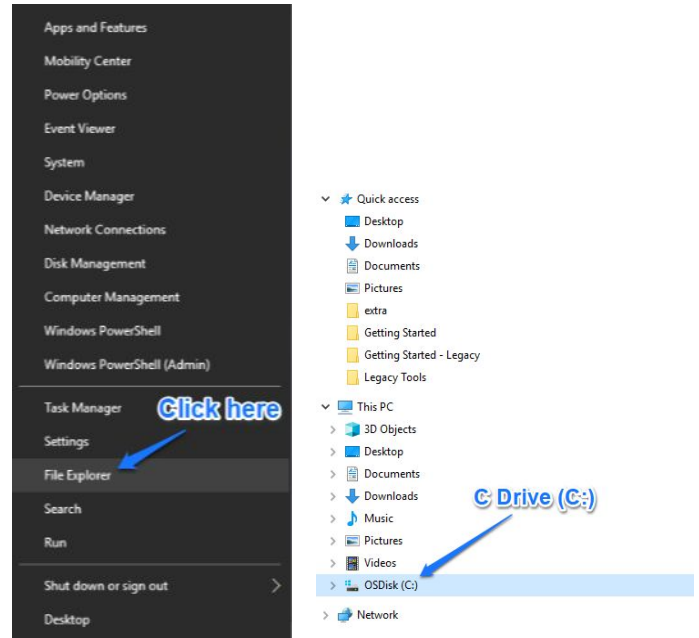

2. From the Stat Crew Control Panel on your desktop, select Tools, then click on the "TasComms32" link.

## **To display or print the User Guide:**

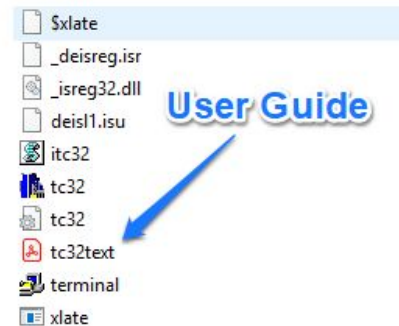

1. Right click the Windows icon in the bottom left hand corner of your computer to access the menu and select “File Explorer”. Once opened, select C Drive (C:) on the left side.

2. Once in your C Drive (C:), click on the “tc32” folder.

3. To access the User Guide, click on the “tc32text” file.

---

## **Control Panel**

[Back to first page](#)

The Stat Crew Software Control Panel allows you to launch all Stat Crew applications from one icon on your Windows desktop.

### ***To install the Stat Crew Control Panel:***

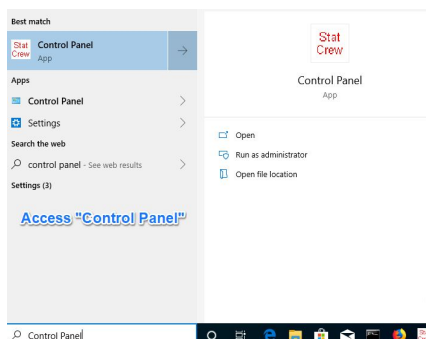

Go to [www.statcrew.com](http://www.statcrew.com) and select SUPPORT & FAQ → MAINTENANCE UPDATES → Control Panel (under SOFTWARE TOOLS). **Direct link [here](#) → follow the instructions to download and install.**

## To run Control Panel:

1. Type “Control Panel” in the search bar.

OR

Click on the “Control Panel” icon on your desktop.

---

## TasZip

[Back to first page](#)

TasZip is a “zip/unzip” (file compression) tool for use with Stat Crew Software scoring products.

Key features include:

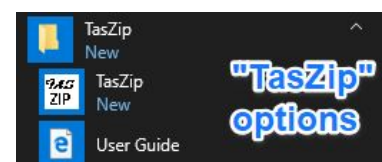

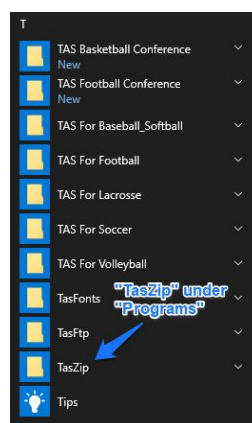

- Faster and smaller backup/restore of game directories
- Useful for “larger” games directory backups that may otherwise require more than one storage device (i.e. backups of season or conference/league games directories)
- Preview HTML files (prior to posting to your website)
- Zip/Unzip files are compatible with [PKZip](#), [WinZip](#), [NetZip](#)
- Email “zipped” roster and games files

## To install TasZip:

Go to [www.statcrew.com](http://www.statcrew.com) and select SUPPORT & FAQ → MAINTENANCE UPDATES → TasZip (under SOFTWARE TOOLS). **Direct link [here](#) → follow the instructions to download and install.**

## To run TasZip:

Left click the Windows icon in the bottom left hand corner of your computer. Once clicked, scroll down to the letter “T” to access “TasZip”. Click on the “TasZip” icon to access the different options.

Please note: You can also run “TasZip” under Stat Crew Control Panel from your Windows desktop. Simply select Tools, then select “TasZip”.

## TasFonts

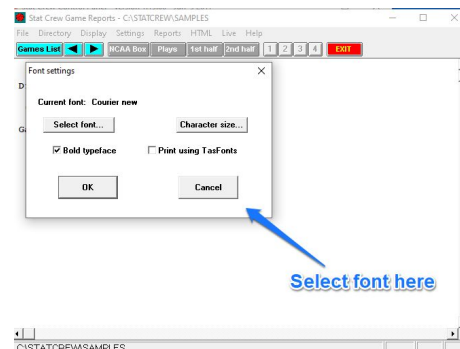

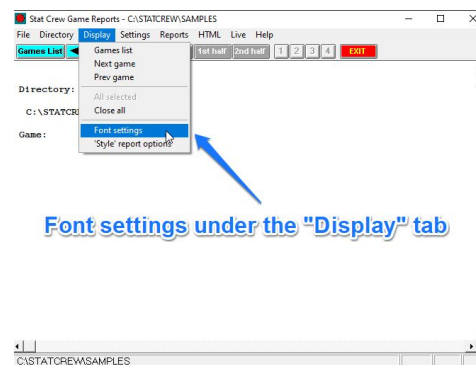

[Back to first page](#)

TasFonts provides a set of alternative fonts that can be used in Stat Crew Software reports. In particular, the “Lucida Sans Typewriter” font gives you a crisper, easier-to-read printout than the standard “Courier New” font, making it a good choice for reports that will be copied or faxed.

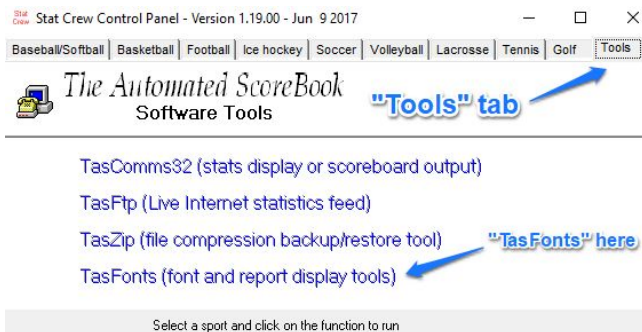

### To install TasFonts:

Go to [www.statcrew.com](http://www.statcrew.com) and select SUPPORT & FAQ → MAINTENANCE UPDATES → TasFonts (under SOFTWARE TOOLS). **Direct link [here](#) → follow the instructions to download and install.**

Note: After installing “TasFonts”, you can select the Display → Font setting from any of the Windows Reports menus to select a new font for your reports.

To preview and test the look and feel of these alternative fonts go to the Control Panel. From the Control Panel, click on the Tools tab and select “TasFonts”.

## TasFTP

[Back to first page](#)

TasFTP is a tool that provides play-by-play updates to your web site during a game when using the “Live Stats” feature in Stat Crew Software products.

### To install TasFTP:

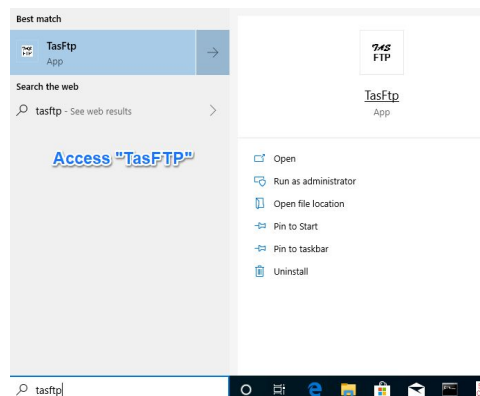

Go to [www.statcrew.com](http://www.statcrew.com) and select SUPPORT & FAQ → MAINTENANCE UPDATES → TasFTP (under SOFTWARE TOOLS). **Direct link [here](#) → follow the instructions to download and install.**

### To run TasFTP:

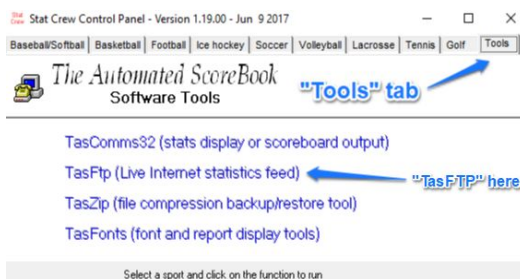

1. Type “TasFTP” in the search bar.

OR

Click on the “TasFTP” icon on your desktop.

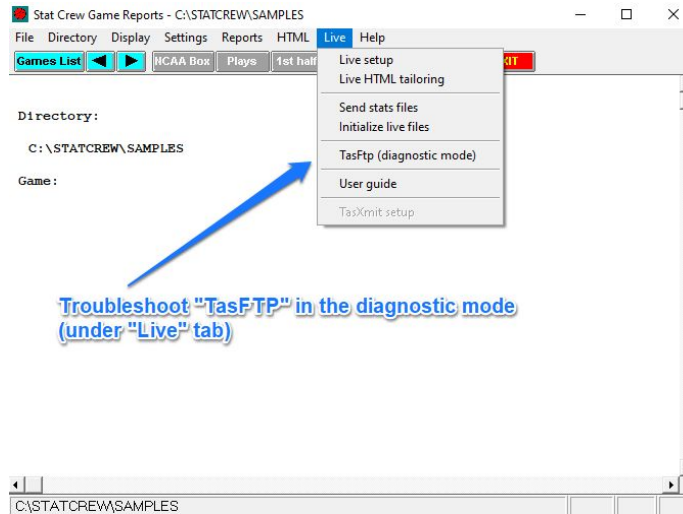

OR

## To troubleshoot TasFTP from Game Reports:

You can access “TasFTP” directly from Game Reports for troubleshooting purposes. From Game Reports (any sport) go to Live → TasFTP (diagnostic mode).

---

## Electronic Scoreboard Interface

[Back to first page](#)

Stat Crew Software supports the sending of stats to an electronic scoreboard during a game.

### To display or print the documentation:

1. Access the setup window via your download folder. After clicking on “Scoreboard”, select the sport.
