Legacy Version 1.20 (Available July 2018)
- *Access to all updates from July 2018-June 2019 (ie versions 1.20.01-1.20.xx)*
- *Live XML activation through July 2019*
- *Updated NCAA team codes*

What's New 2000-2017:

Version 1.19.01-1.19.03 (Updates made June 2017-May 2018)
- Season Reports: Use value in Html|Setup|Html-Tags on teamstat.htm page to allow for <html lang="">
- Career Reports: Use value in Html|Setup|Html-Tags on histstat.htm page to allow for <html lang="">
- Updated NCAA team code list

Version 1.18 (2016)
- Game Scoring: Change input menu to "Cl-warn" and "Cl-viol" (instead of "30-warn" and "30-viol")
- Game Reports: Change "30-second clock violation" to "shot clock violation"
- Season Reports: Fix to extraneous 'c' character in Overall/Conf tab stops

Version 1.17 (2015)
- New — Button added to Control Panel to run Conference Career reports
- Conference Reports: Add Career reports feature and applicable reports suite

Version 1.16 (2014)
- Add class "=" attribute to <player> tag of XML output
- Season Reports: Resolve truncation of 54-player roster in Individual statistics
- Add shot percentage, SOG percentage, caused T/O, faceoffs won for Team and Player Game Highs
- Add opponent player highs to Team and Player Game Highs
- Include schedule legend in results capture for archives
- Include schedule notes for Next Gen archives
- Include schedule dsave, freepost, shootout in indall.XML output
- Add change to preserve changes to previous Game records minimum settings
- Improved All-time results editor NCAA code lookup
- Career HTML: Add links to seasons within All-Time Results

Version 1.15 (2013)
- Add Penalty codes: TARG, FLAG, CVIO and WITH
- Adjust spacing for boxscore with 45+ players in game to avoid truncation at bottom
- Treat game with Schedule Note = "V" as vacated game — game statistics count, but no win or loss credited
- Season HTML: Add links to individual game-by-game page for individual statistics page
- Season Reports: Individual statistics change column header from "w-l" to "faceoff"
- Add all-time ranking indicator for single-game records to Individual Career History report
  (only displayed in ranking is within range of Records report settings|# entries for Game records value)
- Move access to the "Delete game records for ..." function on the Edit game records windows
  (use Delete "All for ..." checkbox)
- Include player single-game highs in "Delete game records for ..." function

Version 1.14 (2012)
• For Display|All selected, show Combined statistics at top of report (if selected)
• Add link index at top of Individual career summaries (all years) section
• Use player names for Individual career summaries internal page markers (to simplify links from bio pages)
• Fix to Individual career summary to show prior school stats when no GP yet at new school
• Add support for faceoff violation and 30-second (stall warning) statistics
   1. Faceoff violations: Enter "Y" in the Violation? Field to indicate the whistle call for a violation
   2. Faceoff violations: After third violation use the "P"enalty command to selct the "FACE" penalty
   3. 30-second warnings: Press "W" to indicate a 30-second shot warning
   4. 30-second violations: Press "V" to indicate a turnover due to 30-second expiration called
   5. Goal scored during 30-second warning: Enter "3" in the Goal Type field when scoring a Shot->Goal
• Read/write new data from v1.14.04 (above) into Manual entry and Utilities
• Credit faceoff W-L on faceoff violation to individuals instead of "TM" players
• Eliminiate "Expected MORETEAM" message when reading in "older" game files (without new violations functionality)
• Implement scoreboard output feature (requires TAS Comms v.3.14 for serial port output)

Version 1.13 (2011)
• Remove extraneous lines from HTML|XML (by players) output
• Add "Lookup team codes" function to XML output window for Game Reports

Version 1.12 (2010)
• Add support for entry of career-totals-only statistics (career totals for a player, without season-by-season statistics for that era)
   To use this:
   1. Select Edit|Add new season
   2. Add a season for the last year of the player(s)
   3. Select Edit|Edit season data
   4. Check the "Contains career totals only" option
   5. Click the "Individual stats" button
   6. In the "Full roster" list click <New player>
   7. Enter the career totals for a player who last played in that year
   8. Repeat for other players as necessary
   9. Stats entered will be marked as "Contains career totals only" and considered for individual career records, not individual season records
• Fix to tab-stop output for career individual single-game highs
• Add option to force page break for each player – Individual game-by-game (hardcopy 'style' mode)
• Improve NCAA team code lookup function
• Add team total ground balls, caused turnovers to short boxscore
• Adjust column layout for individual game-by-game report to avoid truncation on right ('style' mode)
• Conference reports: Fix to Individual Highs report (caused turnovers category), and Individual Leaders report to accommodate number rof entries for GB, CT and DC categories
• Conference reports: Fix to HTML Individual game-by-game pages

Version 1.11 (2009)

- New – Career Single-game Highs report
- Career reports: Add All-time Results and All-time vs. Opponents included in HTML
- Career reports: Show season summary HTML in browser
- Add national rankings in Career results
- Add option for "All years" in Career Summaries HTML
- Add "Minutes" to Edit season data (offensive stats), show minutes played in Individual Career Summaries
- Career reports: Improve filter for "Team" player
- Improve name sort for three-part names (i.e.: "Kevin D. Cox" and "T.J. Rogers"
- Allow maximum six characters for team code in Game Reports|XML output parameters
- Add "Show list of NCAA team codes" to Game Reports|XML output parameters – to display list of NCAA codes
- Career/Historical reports: Accommodate display for results when W-L-T is known, but final score is unknown
- Add "TeamID.CAP" output to Cumes|Capture season stats function to support in-game season-to-date goals input
- Add Settings|Report options|GWG option to control display of GWG in reports
- Add Settings|Report options|Individual stats on 1-page option for printed boxscore ('style' mode)
  – Boxscore prints on three pages, rather than four
- Add "All players" option to Special|Individual Game Highs report selection
- In Game XML, add "shutout and "sf" (shots faced) attributes to <goalie> tag, and "stadium" attribute to <venue> tag
- Add "foul" attribute to <penalty> tag
- Career reports: Enforce minutes played for goalies in statistics leaders report
- Suppress shots/shots on goal data columns if these statistics were not tracked in Career reports
- Career reports: Save separate titles for men's, women's venues
- Career reports: Add option to show games started

Version 1.10 (2008)

- New – Game Viewer access to career statistics (uses Career XML Summaries by player)
- New – Show/Flag/Hide inactive players
- Add controls for text color of TeamIDs and "Prd" in scoreboard area of Live HTML
- Add defensive saves statistic to In-game and manual scoring
- Add option to show defensive saves in Game and Season reports
- Change prompt for penalty types to technical, personal, 1.5-, 2-, 3-minute penalties
- Add print all boxscores function
- Game reports: Format faceoff as "won-attempts" (instead of "won-loss") in
- Display goalies in order of appearance in boxscore (when team uses more than 2 goalies)
- Show opponent rank in Combined Statistics report
- Combine multiple players on single page for Individual Game-by-Game report
- For Combined Stats and Results reports, forma W-L-T as "#-#" if no ties
- Add support for schedule legend in Career All-time Results reports
- Career reports: Expand ties for team and individual season and career records
- Career reports: Improve sort season statistics summary (sort on points)
- Career reports: Add XML summaries (by season) for archive purposes
- Add controls for Career HTML column header color
- Accommodate career historical data where games palyed information was not tracked
- Add "All" line to Individual Career Summary for "prior team statistics totals
- Add controls for Conference HTML column header color
- Conference reports: Show W-L instead of W-L-T in Standings report
- HTML output: Add handling for "special" characters in player names

Version 1.09 (2007)

- New – 'Style' format Season and Career/Historical reports
- New – Table-style format for career HTML output
- Automatically prompt dc or gb after faceoff
- Improve directory prompts for: import/export, pack/unpack, copy HTML to disk, and backup/restore
- Capability to insert graphic images into the header are of hardcopy 'style' reports
- Season reports: Add Roster report (features include sort by uni# or name, 'style' and XML formats)
- Manual entry: Fix to avoid setting games played to "1" when editing a season-to-date "game" file
- Manual entry: Automatically sort the Goal history list in chronological order after edit
- Roster size incread from 50 to 75 players
- Live HTML: Optionally deisplay game info within sponsor text (add a line in the sponsor text file with the tag: <info/>)

Version 1.08 (2006)

- Game Viewer: Allow for "http" access to game, season and career XML files via the Internet
- User player uniform number in season HTML files/links for individual game-by-game outputs to allow for more predictable file names (i.e.: to create links from player bio pages)
- Remember separate rules for each directory (to simplify switchcing between men's and women's formats)
- Add a separate field in Rules setup to specify the number of overtime minutes for overtime periods
- Add saves by period to goalie statistics in 'table-style' HTML if enabled
- Option to mark stats for a player from another team/school (to exclude from season and career leaders)
- Install updated NCAA team code list (ncaacode.rpi)
- Game Viewer: Implement method to automatically resize viewer window at startup

@Stat_Crew

Version 1.07 (2005)

• Career summary all-time, single-season rankings
• Career all-time records vs opponents
• Roster name format functions (upper, mixed, first, last)
• Import games list sort by date
• Career category ordinal rankings (1., 2., etc.)
• Prompt team name speling on roster import
• Option to "hide" opponent season totals
• Add faceoff information to Combined Statistics report
• Career categories for save pct., games played, games started, minutes played

Version 1.06 (2004)

• Game reports: Use full team name instead of TeamID in short boxscore report
• Game reports: show line for "TM" in boxscore if any stats allocated to uniform number "TM"
• Game reports: Add indication in play-by-play of "failed" clear attempt
• Game reports: Add option whether to display goalie saves by period in boxscore
• Game reports: Show starters in order entered on Game starters window instead of uniform number order
• Game HTML: Use table format for boxscores
• Season reports: Add free position made-attempts line to the Team Stats report
• Season reports: Add draw controls to individual game highs report
• Season reports: Add Cumes|Capture season stats for season-to-date reporting to conference office
  (optional); creates files in a "SEASON" subdirectory
• Season HTML: Add Settings|Report options|Use 'table' format option
• Career reports: Game results are now included in the Season|Summary report and Summary HTML outputs
• Career reports: Career capture automatically extracts game results; edit function to enter results for prior seasons
• New - Career reports: "All-time results" report shows game results for each season
• New - Career reports: "All-time vs team" report show game results against a selected opponent
• Add running home-visitor score to the scoring summary in the boxscore
• Prompt for rules settings when starting in-game or manual scoring (verifying men's/women's rules are in effect)
• Deliver a default value of "180" seconds, instead of "90" seconds for the Game setup|Rules|Penalties|Match
• In-game: Allow for multiple EMO/PP opportunities to be associated with a penalty by using a result code of "2",
  "3" … or "9" – in additional to the standard result code of "Y" to indicate a single EMO/PP opportunity is present
• In-game: tweak statistics area to show various team totals in the summary area depending on options
• In-game: Only allow for one assist (unless NLL or MLL 2-point mode)
• Improve layout of HTML statistics home page
• Implement season-to-date capability for team reporting
• Enable Settings|Report options|Season-to-date mode option for collecting season-to-date files from
  member teams, rather than game-by-game reporting
