4	29-Nov-16	Production release	1.03
5	19-Dec-16	Production release	1.04
6	09-Jan-16	Production release	1.05

RELEASE 1.05   January 09th 2017

Type	JIRA ID	Description
Tickets Resolved		
	SYNC-428	Basketball: Scoring: scoring UI
	SYNC-628	Conference standings report bug in "last 10" calculation
	SYNC-629	Basketball: Issues while review of Beta 1.04.01
	SYNC-620	Basketball: Scoring screen: In New Play Edit play, player drop down should always show TEAM option
	SYNC-606	Roster reconcile in local Sync when importing third party XML
	SYNC-619	Basketball: Transparency while download all is not visible when Multiple games are deleted from basketball dashboard screen.
	SYNC-464	Basketball: Updater: Following screen of error in update and successful update should be styled correctly
	SYNC-610	Basketball: Conference: Loader did not disappear after user clicks on validation message window after internet connection lost.
	SYNC-623	Other Teams tab issues in Smart Search
	SYNC-622	camel case missing on boxscore for imported game
	SYNC-553	play by play 2 column needs indent
	SYNC-540	boxscore must be one-page, minimal lines and no color backfill on column headers
	SYNC-538	Basketball: Reports: Box Score - Printing without a margin/cushion
	SYNC-599	duplicate uni numbers should cause error message or warning in the client
	SYNC-582	add by period team percentages to boxscore report and season reports for 4-quarter game
	SYNC-625	Basketball: Reports: Game Box Score: Games are not displayed in reports screen and Result column is blank
	SYNC-523	Basketball: Mac: Button to download new version in error message is not visible to user for accessing new version of application
	SYNC-611	Basketball: Schedule: Upload game do not show any acknowledgement to user
	SYNC-615	Allow keying in uni number on edit modal

	SYNC-306	Basketball: School Dashboard: UI for user table is not implemented as shown in UI guide.
	SYNC-415	Basketball: Scoring: Game which is already final will not push the xml and json to cloud when user do any changes in scoring of game info.
	SYNC-442	Basketball: Reports: GameBoxScore: WBB stats expect to display shooting pct by-period.
	SYNC-374	Basketball: Overall Application: Need to address application header text as well as logo and text on task bar
	SYNC-150	Basketball: Overall Application: Need to set the tab index sequence in each screen.
	SYNC-597	Combined report must fit on one page
	SYNC-570	Substitutions
	SYNC-203	Input Focus states
	SYNC-455	local teams are being added to the cloud, should be local only
	SYNC-399	Basketball: Updater/installer: Need to implement software update option from hamburger menu
	SYNC-499	XML upload times out, throws error
	SYNC-528	Basketball: Schedule: Status of the game is not updated on Sync application also not reflecting updates on cloud for game marked as final
	SYNC-432	Basketball: Reports: F4 for boxscore, then have to click the close button
	SYNC-618	Basketball: Minutes for summary of byprdsummary are calculated wrongly.
	SYNC-362	Basketball: Overall Application: Need to style "context menu" on screen
	SYNC-431	Basketball: Scoring: Add column to L/R panels for individual turnovers
	SYNC-462	Menu styling issues
